

A Monthly Newsletter For Friends and Clients of Quinton Insurance

MEET YOUR TEAM

Nina Arenas
Insurance Advisor

Favorite food: grilled gouda and goat cheese with tomato soup

Favorite movies: I have enjoyed watching the Marvel movies and Transformers with my boys

Dream vacation: A little spot in the woods with a stream or lake. No interruptions from the outside world. Completely disconnected from society, no phones, no computers, no people. Nothing but water, dirt and wildlife

Favorite pastime: Hanging out with my almost adult children, when they are not around I love to draw, paint and some macramé crafting

How I got into insurance:
I was in banking for 10 years and realized I needed a change.
I am really enjoying the learning process! I can see myself doing this for a long time

2020 DOG DAYS OF SUMMER...

CHARLIE - Nate

ZEUS & REX - Meagan

LUNA - Angela C.

CASH - AIMEE

EARL - Taylor

SALLY - Jeanne

TEDDY BEAR & SHERMAN - Michele

REGGIE - Lynn

SCOUT - Sandy

JAX - Melissa

HANK - Matt

COOPER - Chris

COCO - Gene

MILO - Nina

For those of us that have been forced to work from home during the coronavirus pandemic, there are so many inconveniences: social isolation, lack of access to free office coffee, difficulty making meetings work remotely. But it's also introduced plenty of positives: judgment-free fashion choices, cutting the commute down to the distance between bed and desk and for most of us at Quinton Insurance - lots more quality time with our dogs.

This month, we thought you might like to meet a few of the newest members to the Quinton Insurance team!!!

GUESS THE CELEBRITY? AND WIN A \$10 GIFT CARD

Send your best guess to service@quintoninsurance.com

Every correct answer will be entered into a draw, and we'll select one winner.

JEFF TRISCIANI

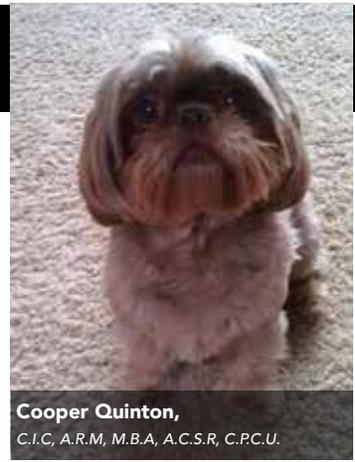

It was... **Tom Hanks**

No purchase necessary. Contest open to everyone.

COOPER'S CORNER

Cooper Quinton,
C.I.C, A.R.M, M.B.A, A.C.S.R, C.P.C.U.

NEW LOCATION

Quinton Insurance is so excited to announce the Grand Opening of our newest office in Naples Florida

As many of our clients have been asking us **"When is Quinton Insurance Going to open an office in Florida?"**

...So you asked and we listened and as of 9-1-20 we will now be fully staffed and operational in Beautiful Naples Florida

Our goal is to provide the same high quality level of service to our Florida customers as you have come to expect here in New York

If you know of any of your friends or family that are living in Florida or have a seasonal home or business and are unhappy with their rates or poor customer service please have them call us anytime at **1-800-454-1970** for a quote.

Don't forget about our amazing St. Jude's Referral Program where we will send you a \$25.00 gift card and then we will donate \$25.00 to St Jude's Hospital to help those amazing kids

...and the Dragon ate the Prince!

...but his family lived happily ever after because he had bought Life Insurance. *The End.*

WE ARE NOW PROUD TO BE A **DAVE RAMSEY** ENDORSED LOCAL PROVIDER

DID YOU KNOW?

First-time drug use is more common in summer. Teenagers and adults are more likely to try illegal or recreational drugs for the first time during summer months-34% of those studied first tried LSD in summer, 30% first tried marijuana or MDMA (ecstasy/Molly), and 28% first used cocaine.

Joseph J. Palamar, PhD, MPH, associate professor, NY University School of Medicine.

It may be possible to restore mobility and sense of touch after a stroke? Scientists reprogrammed human skin cells to become nerve cells, then transplanted those cells into the brains of rats that had suffered strokes. After six months, the transplanted cells had repaired the damage caused by the strokes.

Study by researchers at Lund University, Sweden.

EVERYONE WINS

GREAT NEWS!!!

Refer your friends and family to Quinton Insurance and for every referral we will donate

\$25 to St. Jude Children's Research Hospital

...whether they buy insurance from us or not

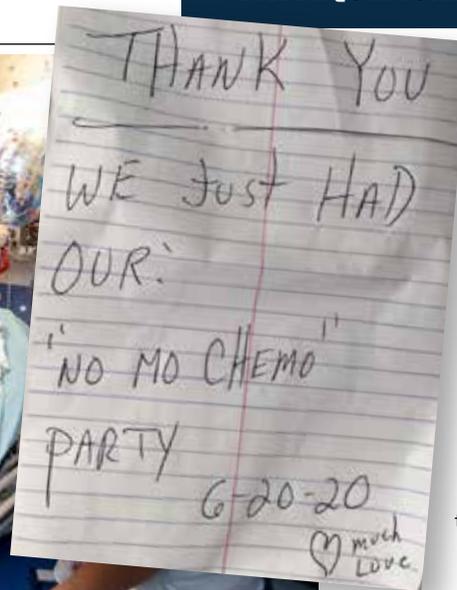

We will ALSO enter *YOUR* name into our **MONTHLY** drawing to WIN an iPad, a Big Screen TV or a vehicle Dash Cam *...your choice*

There is no limit to the number of entries. Refer 10 friends to us and YOU get 10 chances to win!

CONTACT US TODAY WITH YOUR REFERRAL

That heartfelt note of gratitude was intended for a single St. Jude employee. But symbolically, those dozen words were written for the millions of donors who support every aspect of what happens at St. Jude. The research. The incredible care. The unprecedented precautions during the pandemic. And, happily, on June 20, 2020, the celebration when treatment ended and one of those precious kids got on with their life.

It's a thank you to be shared with all who embrace the St. Jude mission because everyone, somehow, in their own special way, contributed to this child's end of chemo celebration. All of us, together, were gathered in the room to throw confetti and sing the song that is pure joy as it reverberates in the halls of St. Jude.

Should I get a Home Security System?

Though a home security system may seem like an expensive investment, it could help pay for itself, considering that you may get a discount on your homeowners insurance premium for having a system in place.

Safety First

When you think home security, you may only think burglar alarm. However, a fire alarm system is just as important. A fire that starts while you're away from home can result in losses that far surpass those of a break-in. Having a fire alarm built into your home security system will ensure a quick response in the event of a fire, whether you're home or not.

SMOKE DETECTOR MAINTENANCE

Smoke detectors are one of the most important safety devices you can install in your home. It's absolutely vital to test them regularly and replacing smoke detector batteries is critical to their usefulness and to keep your home and your family safe.

When selecting a smoke detector, keep the following in mind:

- Photoelectric units are better for smoldering fires—such as electrical fires in the walls—so they're ideal for kitchens and bathrooms where these fires tend to occur.
- Ionization units give the surrounding air an electrical charge and then measure whether the charge

remains constant or if a fire consumes the oxygen in the air. These units are better suited to areas where fires get out of control, such as a basement or near a furnace.

Use this guide to ensure smoke detectors are working:

- Press test button on the unit and wait for sound.
- Light a candle and hold it 15 centimetres below, so the heated air will rise into the detector.
- If the alarm doesn't sound within 20 seconds, blow the candle and let the smoke rise.
- If the alarm still doesn't sound, open the detector and clean the unit. Then, test the unit again.
- *If the detector still isn't working, it should be replaced immediately.*

IS YOUR HOME SAFE?

Disinfect your home after a virus.

Focus on the bathroom, kitchen and shared surfaces in the bedroom. Clean areas the sick person spent time in and things he/she touched, including countertops, faucets, and cabinet hardware. Pay special attention to hard surfaces where germs can survive, such as TV remotes and door handles. Disinfect sheets, pillowcases and other bedding. Clean electronic devices, such as cell phones and tablets.

Use the right products for each place—bleach for the bathroom, laundry sanitizer for clothing and bedding, and disinfecting wipes for many hard surfaces - **be sure each surface stays wet for 15 seconds to kill germs.**
